Available for External Use

Page 1 of 2 Updated Weekly

1 = Adult = 18 years and above / Child = 17 years and below 2 = Surgeries - counting each visit to the operating room/theatre as a surgery/OR visit

3 = Unique Patients - counting each unique patient only once and not counting them more than once even if they receive more than one surgery or visits to the OR 4 = Dental Patient Encounter - some patients might be counted twice if they return for separate treatments.
